DECORATIVE SURFACE PRODUCTS COLOR CHART

“DRY-SHAKE” OR “DUST-ON” SURFACE HARDENERS ARE A STAPLE OF THE CONCRETE INDUSTRY THAT CAN PROVIDE INCREASED DURABILITY, STRENGTH, AND BEAUTY TO ANY CONCRETE SURFACE. WE ADD ANOTHER SELECTION OPTION TO THE MIX WITH OUR PRODUCTS, PROVIDING **COLORHARD™**, A SURFACE HARDENER COMPRISED FROM QUARTZ AGGREGATE AND **COLORBRITE®**, WHICH CONTAINS OUR HIGH-PERFORMING EMERY AGGREGATE. THE INCREASE SURFACE AND WEAR-RESISTANCE OF **COLORHARD™** AND **COLORBRITE®** MAKE BOTH PRODUCTS IDEAL FOR USE AT THEME PARKS, PARKING GARAGES, MACHINERY FLOORS, SHOPPING PLAZAS, AND OTHER HIGH-TRAFFIC AREAS. **LAMBCO® POWDER RELEASE** IS ADDITIONALLY AVAILABLE IN MOST COLOR OPTIONS, TO PROVIDE MULTI-TONALITY, DEPTH AND BEAUTY TO YOUR DECORATIVE CONCRETE PROJECT.

PIGMENTED COATINGS CAN PROVIDE YOUR PROJECT WITH BEAUTY AND DURABILITY. THESE PRODUCTS AREN'T LIKE PAINT, BUT ARE CAPABLE OF WITHSTANDING SIGNIFICANT FOOT OR VEHICLE TRAFFIC, AND COME IN A STANDARD AND CUSTOMIZABLE COLOR SCHEME. **LAMBCO® PLEXGARD**, OUR WATERBORNE TECHNOLOGY, HAS SEEN USE IN MAJOR COMPANY STOREFRONTS, GROCERY SHOPPING CENTERS, AND THEATERS. IF YOUR COATING MAY BE SUBJECT TO VEHICLE TRAFFIC, USE OUR SOLVENT-VERSION, **LAMBCO® COLORCOAT**.

THIS COLOR CHART REPRESENTS STOCK COLORS FOR STANDARD PRODUCT FORMULATIONS. CUSTOM COLORS ARE AVAILABLE. PLEASE NOTE THAT THIS ELECTRONIC VERSION, GIVEN MONITOR OR PRINTER VARIANCES AND OTHER POTENTIAL ISSUES THAT WILL CAUSE AESTHETIC ALTERATIONS, IS FOR GENERAL IDEAS ONLY AND THAT A PHYSICAL PRODUCT SAMPLE MUST BE USED FOR SPECIFIC ACCURATE DISPLAY OF THE FINAL PRODUCT. REFER TO THE CURRENT PRODUCT(S) DATA SHEETS FOR MORE DETAILED PRODUCT INFORMATION, USES AND LIMITATIONS.
